

## SPECIALTY APPLICATIONS

PAYING ATTENTION TO THE DETAILS

ATTENTION TO DETAIL AND A SPOTLESS REPUTATION.

# THAT'S NEXCLEAN

## Why choose NEXClean?

### **ELEVATOR TRACKS**

NEXClean's vapor steam technology is the perfect way to address those deep grooves and beat up stainless steel surfaces. We can get your tracks looking brand new with our elevator track deep cleaning.

### **STAINLESS STEEL KICKPLATES**

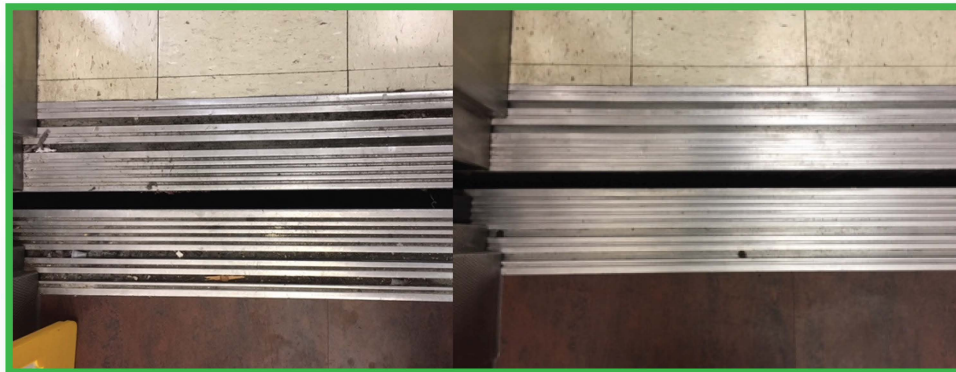

NEXClean has a solution that cleans wax buildup from any size kickplate. This application ties in nicely with our standard on-site deep cleaning program for patient care equipment.

### **TRASH & LAUNDRY CHUTES**

We have a process that addresses not only the chutes themselves but also the stainless steel door frames and rooms where the chutes collect trash and laundry.

BEFORE

AFTER

We have a process that addresses not only the chutes themselves but also the stainless steel door frames and rooms where the chutes collect trash and laundry.

Healthcare facilities face some of the most stubborn and difficult cleaning challenges. NEXClean has developed a comprehensive service to help you address these mundane and demanding cleaning tasks thus allowing your employees to focus on more prominent responsibilities

Contact NEXClean today for a free facility evaluation.
