JCR Guidance

We developed a tool in partnership with the Joint Commission Resources that helps with essential elements for effective environmental infection prevention and resources for ongoing assessments.

Our Experience

We have worked with some of the largest healthcare facilities in the world, including: Johns Hopkins, Children's Hospital of Philadelphia, Rhode Island Hospital, Barnes Jewish Hospital, RWJ Barnabas Health and more.

INSPECTION PREPARATION

HEALTHCARE SERVICES

Facilities Serviced:

Hospitals, Long Term Acute
Care Centers, Nursing Homes,
Surgery Centers

Healthcare Services:

- Equipment Deep Cleaning
- Transportation Equipment Management
- Terminal Cleaning

Testimonial

“We have used NEXClean for
Joint Commission surveys for
years and their services are
world class.”

Joseph Cooney

Director of Support Services
Penn Medicine

Track & Report

All serviced equipment is
labeled and scanned into an
asset tracking software. Clients
then have access to a
smartphone application that
allows for real time feedback on
all of their equipment.
